Dear Dawn Jennings

Re: Year 3 SEQOHS annual renewal assessment – MOHS Workplace Health Limited

Thank you for submitting the SEQOHS annual renewal application. The submission has been assessed and I am pleased to confirm that MOHS Workplace Health Limited has successfully renewed its accreditation until 11 June 2022.

Following their assessment, the SEQOHS assessor has provided the feedback listed below:

"Thank you for completing your annual assessment and for clarifying the results from your findings. Your evidence demonstrates a continued commitment to the standards as set by SEQOHS. In addition, your clinician's CPD in the specialist field of Tropical Medicine and overseas vaccination needs are commended.

It is a pleasure therefore to recommend that your service's accreditation should be renewed for a further year. Well done."

We also would like to celebrate our service's Annual Renewal assessment success, and were wondering if you would be happy if we celebrated your achievements via social media e.g. Twitter. If you would like us to mention your success on our social media page, please send an email to askSEQOHS@fom.ac.uk

I remind you that your SEQOHS accreditation certificate is valid until 11 June 2022, subject to next annual renewal. In order to retain accreditation, your service must undergo a full reaccreditation assessment prior to your five year anniversary. I strongly recommend that you begin to consider your year five reaccreditation now in order to ensure key milestones are met.

As attendance at a SEQOHS training day is a requirement of reaccreditation, I advise you book your place in plenty of time (please see the Reaccreditation Policy for more information). Ideally attendance should be 18 to 10 months prior to the expiry of your accreditation certificate. SEQOHS training is divided into two stages: Stage A is a voluntary introduction to meeting the standards, while Stage B is mandatory and one place is included as part of your fee. You can find out more information about each of these training days by contacting the SEQOHS office.
